WHAT DO
YOU DO?**

We have heard your call! We too are tired of our youth being injured & killed at the hands of brutal violence! We are serious about this epidemic. If you are as serious as we are, you need to be at this event! We will provide workable answers, viable solutions, and down to earth techniques that just might save your Childs life!

This specialized instruction will cover **Life Threatening Scenarios** that have been singled out by our young adults as those that affect them most. The training will provide the participants actual written & practiced strategies to **"Recognize"**, **"Control"**, and **"Endure"** possible life threatening situations. They will be trained to **identify & respond** to the signs & clues of danger!

What will be taught is **"Situation Specific" Preparation**, This is Training that identifies specific **"Danger Factors"** and then puts in place practiced **"Hands on Procedures"** that are actually walked through, under pressure, to create a degree of expertise for the trainee & develop their competence to handle & control their interaction with life altering crisis.

Similar instruction provided to elite crisis response teams, influential security experts, specialized gang intervention groups and prominent executive protection teams!
